FAQ:

- If installed correctly, you will see a 'Le Noise' category in both the Animoog Presets and Timbres when you launch Animoog
- Both of these need to be installed in order to use the presets.

DISCLAIMER:

- If you experience any issues after installing, reconnect your device, open iFunbox and remove both 'Le Noise' folders where they are installed (ie. 'presets' and 'categories')
- I cannot provide additional support, please do not contact me for any technical support.
- By installing these presets and timbres you agree to all responsibility for any device failures and release me 'Justin Carter' from any responsibility to your property.
